

The Hydraulic Press

Lead-times Reduced:

Volume 2 — March 18, 2013

Despite record demand, lead-times on Tie Rod cylinders have been reduced to 5 weeks. This was accomplished through ongoing efforts aimed at improving efficiency and increasing production capacity.

Black is the new Standard Color:

From most customers we hear there is a preference toward cylinders being painted Black. We know today many customers take a Yellow Gladiator/Fortress, Red Royal or White Sword cylinder and paint it black when installing it on their equipment. Our Tie Rods have been black for years as well as our Wizard cylinders and 8" bore cylinders. We have made the decision to transition all of our welded cylinder lines to black paint color. We know this will benefit the majority of customers and for some it may be an inconvenience. Customers who desire colors other than black will be able to order those at lead-time

Standard Cylinder Paint Colors		
Product Line	Current Color	New Paint Color
Wizard Line of 1.5" - 2.75" Cylinders		Gloss Black
Sword Line of 1.5" - 4" Bore Cylinders	White	Gloss Black
Royal Line of 2.5" - 4" Bore 2,500 PSI Cylinders	Red	Gloss Black
Fortress Line of 4" & 4.5" Bore Cylinders	Highway Yellow	Gloss Black
Gladiator Line of 5" & 6" Bore Cylinders	Highway Yellow	Gloss Black
Line of 8" Bore Cylinders		Gloss Black
Tie Rod Line of 2" - 5" Bore Cylinders		Gloss Black
Tie Rod Line of Rephasing Cylinders		Gloss Black

More Standard SAE Ports on Welded Cylinders:

To keep up with current trends and frequent customer requests we will be updating our Sword and Gladiator Lines of welded cylinders to come standard with SAE ports. These models will start with "SAE-xxxxx" and you will still be able to order NPTF ported models under the current "PMC-xxxxx" model codes. Going forward only the SAE versions will be stocked.

Standard Cylinder Port Style		
Product Line	Current Port	New Port Style
Wizard Line of 1.5" - 2.75" Cylinders		JIC
Sword Line of 1.5" - 4" Bore Cylinders	NPTF	SAE
Royal Line of 2.5" - 4" Bore 2,500 PSI Cylinders		NPTF
Fortress Line of 4" & 4.5" Bore Cylinders		SAE
Gladiator Line of 5" & 6" Bore Cylinders	NPTF	SAE
Line of 8" Bore Cylinders		SAE
Tie Rod Line of 2" - 5" Bore Cylinders		SAE
Tie Rod Line of Rephasing Cylinders		SAE
