

THE HYDRAULIC PRESS

Application Spotlight

Prince Manufacturing Series 20 Stack Valves Used on Frac Sand Trailers

Pictured (right) is a frac sand trailer featuring a 13 section Series 20 stack valve made at our facility in Hartington, Nebraska. These trailers are used at oil and gas well sites during the fracing process. The trailer holds frac sand and the valves control the hopper gate cylinders and conveyer belt.

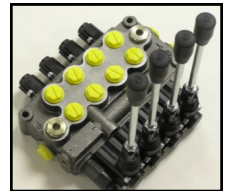

Prince employee Colton K. is shown proudly displaying this assembly before shipment.

Product Spotlight

Stocked 8 GPM Valve

Ranging from 1-6 spools the MB valves are known for high quality at affordable prices. Features include 3,500 PSI rating, enclosed handles, adjustable reliefs, interchangeable spools and low spool leakage rates. Learn more at PrinceHyd.com

Popular Sizes of Our Legendary Tie Rod Cylinders are In Stock for Immediate Shipment Featuring Hard Chrome at a Lower Cost

Prince Manufacturing is pleased to announce the addition of “E” and “F” model tie rod cylinders to our stocked offerings. Visit www.PrinceHyd.com to learn more.

- ◆ Popular lengths of 2” through 5” bore sizes available for immediate shipment
- ◆ High quality hard chrome plating for excellent corrosion resistance with 3yr. Warranty

Configure & Quote up to 4” Bore Welded Cylinders and SV 12 GPM Stack Valves & Assemblies On Line

We are excited to announce that we are nearly ready to launch the latest expansion of our on-line configuration tool called **Configure2Quote**. In April we plan to formally deploy new features that will enable users to build and price custom welded cylinders up to 4” bores and SV Valve Stacks & Assemblies using our on-line web configuration tool. Visit our [Online Services](#) page & register to use the tool or watch our online services [video](#) to learn more about the tools we provide to make your job easier.
